

SolarGrid Energy Solutions

Spanish Omda outdoor power supply

Overview

Does Omada EAP support Poe?

EAP 600 series presents WiFi 6; EAP 200 series is WiFi 5 and EAP 100 series is WiFi 4. To better help deploy a small or middle network, all Omada EAP support PoE to ease the stress of using too many power sockets. By using Power over Ethernet, it is convenient for cable managing and deployment. PoE switch is a good helper in this case.

What should you know about the power supply industry in Spain?

When exploring the Power Supply industry in Spain, several key considerations come into play. First, understanding the regulatory framework is crucial, as the Spanish government has established policies promoting renewable energy sources, particularly following the European Union's directives.

Do I need a power cord to use the outdoor EAP?

** When using the outdoor EAP, the PoE adapter and any AC/DC power cord should be placed inside and avoid water and dust. It is recommended to use weatherproof Ethernet cable to supply outdoor EAP. ** If the EAP support both PoE and Passive PoE, the package contents include the Passive PoE injector.

Does Omada require a controller?

Yes. Requires the use of Omada Hardware Controller, Omada Cloud-Based Controller, or Omada Software Controller. Yes. Requires the use of Omada Cloud-Based Controller For additional version information, please go to the support page. † These functions require the use of the Omada SDN Controller.
