

SolarGrid Energy Solutions

Overview

What is the lowest wind energy bid in Spain?

The lowest wind energy bid was awarded at a price of €20/MWh. The wind bids ranged from €20/MWh to €28.89/MWh. In its National Energy and Climate Plan (NECP) the Spanish Government pledged to increase Spain's installed onshore wind energy capacity by 22 GW from today's 28 GW to 50 GW by 2030.

How much does wind energy cost in Spain?

Spain auctioned a total of 3 GW of renewable energy capacity in its January 2021 tender. The first tender under the new Spanish auction design resulted in the lowest ever prices for new wind energy in Europe. The lowest wind energy bid was awarded at a price of €20/MWh. The wind bids ranged from €20/MWh to €28.89/MWh.

What is the share of wind energy in Spain's electricity generation mix?

The share of wind energy in the electricity generation mix amounted to around 23% in 2021. According to the Spain Wind Energy Association's (AEE) statistics in 2020, wind energy accounted for about 27,446 MW of accumulated capacity. Moreover, as of 2020, wind energy was the second-largest source in the renewable energy mix.

How many wind farms are there in Spain?

Spain ranks fifth in terms of wind power installations after China, the United States, Germany, and India. Spain's wind energy caters to 21.9% of electricity consumption, and there are over 1,265 wind farms currently operational in more than 1,000 municipalities.

Which energy source is most popular in Spain in 2021?

In 2021, Spain's wind energy was the leading energy source, accounting for over 23% share of the national energy mix. Wind energy surpassed nuclear energy in the national energy mix for the first time since 2013 due to

numerous supportive wind energy market policies.

Why does Spain have the lowest wind prices in Europe?

“Spain has delivered the lowest prices ever seen for onshore wind in Europe. The European wind industry continues to reduce costs through innovation, scale and learning effects. And major credit is due also to the Spanish Government here for using Contracts-for-Difference (CfDs) as their new auction model.
