

**SolarGrid Energy Solutions**

# **St Johns Solar Energy Storage Project**

## Overview

---

Universal Kraft and Neqotkuk (Tobique First Nation) will build, own and operate a solar farm of up to 10 megawatts on Old Black River Road in Saint John and supply 100 per cent of the power generated to Saint John Energy. How much does a solar project cost in Saint John?

June 17, 2025. Image: Alex Allan A \$14-to-\$15-million solar project is coming to Saint John, bringing clean energy to more than 1,200 homes. Saint John Energy made the announcement on Tuesday, saying it will be one of the largest in New Brunswick.

Does Saint John energy have a solar farm project?

Andrew Ahearn, Director of Engineering and System Strategy with Saint John Energy, spoke with Local 107.3FM about the company's involvement in the project and their investment in renewables, targeting zero emissions by 2030. A new solar farm project, which is set to be New Brunswick's largest, is planned to be built on the east side of Saint John.

What does Saint John's solar project mean for Canada?

It also represents a strong step forward in Indigenous-led renewable energy across Atlantic Canada. A \$14to\$15million solar project is coming to Saint John, bringing clean energy to more than 1,200 homes. Saint.

Why did Saint John energy choose solar?

Ryan Mitchell, president and CEO of Saint John Energy, said the decision to use solar was based on extensive evaluations of multiple renewable options. "This project allows us to deliver lower-cost, reliable clean power through a 30-year power purchase agreement," Mitchell said.

How much energy will Saint John energy produce a year?

Officials say the facility is expected to cut nearly 10,000 tonnes of greenhouse gas emissions each year, and will produce up to 10 megawatts of power. Saint

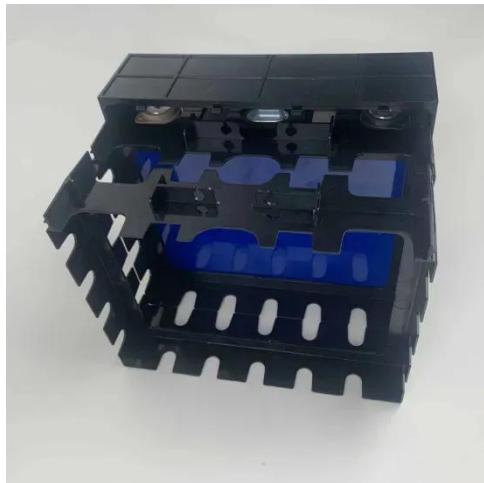

John Energy is partnering with Neqotkuk (Tobique First Nation) and Universal Kraft to build, own, and operate the Menahqwesk Kisuh Energy Hub along Old Black River Road.

What is Saint John energy's zero30 project?

The development is a key component of Saint John Energy's Zero30 initiative, aimed at achieving net-zero emissions by 2030. It also represents a strong step forward in Indigenous-led renewable energy across Atlantic Canada. A \$14to\$15million solar project is coming to Saint John, bringing clean energy to more than 1,200 homes.

## St Johns Solar Energy Storage Project
