# Sydney Australia Shingled Solar Panels

## Overview

---

What new solar panels are coming to Australia?

Another interesting new solar panel to watch for in Australia in the months ahead is Hyundai's HiE-S350SG - a 350 watt shingle cell module designed for the home and commercial market. After being missing in action in Australia for 7 years, Hyundai solar panels once again became available locally in 2018.

Who makes shingled solar panels?

Hyundai Solar was one of the first manufacturers to release shingled cell panels with their high-performance UF Series M3+ PERC range of panels. Another is the SunPower P series which is designed primarily for large scale commercial and utility projects.

What is a shingled solar panel?

As solar panel technology continues to mature, shingled modules represent the current state-of-the-art in terms performance, reliability and aesthetics. Conventional Solar Panels Conventional solar panels use various numbers of solar cells depending on the desired output of the panel.

Are shingled solar panels good for off-grid applications?

An ideal option for any off-grid application, shingled solar panels are designed to withstand Australia's unpredictable temperatures and weather conditions. The durability of shingled solar panels sustains their effectiveness and efficiency even when they're exposed to elements that would normally affect other types of solar panels.

What is a solar shingles grid line?

GRID LINES. WOLAR NOIR ALL BLACK SOLAR PANELS are designed not just to look great on your roof, but also perform better than conventional grid panels. What makes it so unique is the fact that they are made up of hundreds of

individual shingles stacked together, as opposed to blocks of cells string-welded together.

Which manufacturers use shingle solar cells?

Other major manufacturers that have been using shingle solar cell technology include SunPower, Canadian Solar and Longi. On Tuesday, national wholesale distributor of PV components Supply Partners announced the first stock of the new Hyundai 350W shingled panels is arriving at its Brisbane, Sydney and Melbourne warehouses in late August.
