

SolarGrid Energy Solutions

Tashkent Fort Energy Storage Project

Overview

They are organizing a facility of up to US\$ 229.4 million for the development, design, construction, and operation of a 500 MWh battery energy storage system (BESS) and a 200 MW solar photovoltaic power plant in the country's Tashkent region. What is EBRD doing with Tashkent solar PV & energy storage?

Nandita Parshad, Managing Director, Sustainable Infrastructure Group at EBRD, said: "We are proud to partner with ACWA Power and co-financiers on the pioneering Tashkent Solar PV and energy storage project in Uzbekistan, the largest of its kind in Central Asia. The project is core to Uzbekistan's ambition to install 25GW of renewables by 2030.

Why is ACWA partnering with Tashkent Riverside?

The agreement today for the Tashkent Riverside project reflects the strong trust placed in ACWA Power as the private sector partner, and one of the global leaders in renewables and energy storage.

What is the Uzbek greenfield project?

The greenfield development will involve the development of a 200MW solar photovoltaic (PV) plant and a 500MWh BESS that will serve to stabilise the Uzbek grid.

Will Uzbekistan generate 40% of its electricity from renewables?

By 2030, Uzbekistan is aiming to generate 40% of its electricity from renewables. The BESS will help to mitigate the effects of intermittency that are inherent in renewable energy sources, storing excess electricity generated during times of high production and make it available during periods of low production.

Tashkent Fort Energy Storage Project

Tashkent new energy storage charging pile

New energy electric vehicles will become a rational choice to achieve clean energy alternatives in the transportation field, and the advantages of new energy electric vehicles rely on high ...

Tashkent household energy storage

Siemens Energy tapped to supply equipment for gas storage project in Uzbekistan 2021-04-22 16:53:52
