The Prospects of Photovoltaic Containers in Colon Panama

Overview

Will universal solar America open a solar panel factory in Panama?

Universal Solar America will open a solar panel factory in Panama to supply the U.S. market.

When will universal solar install a solar plant in Panama?

The U.S. has had a free trade agreement with Panama since 2012. Equipment for the plant should be installed by early October and up to 50 employees will be hired. Universal Solar expects first delivery of modules in the fourth quarter of 2022.

How many kilowatts does a CCCC photovoltaic power station produce?

In June 2023, the photovoltaic power station built by CCCC's ZPMC for a welfare home in Colón, Panama, was put into use. It has an average annual power generation of about 84,000 kilowatt-hours, meeting the power demand of the welfare home.

Why is Panama so attractive to investors?

Image: Avanzalia Among the Central American states, Panama has become very attractive to investors, not only because it boasts a stable government and uses the US dollar as its currency, but also due to the government now deploying a range of fiscal incentives to support PV, including an exemption on import taxes.
