## Overview

---

Who makes vehicles in Uzbekistan?

Manufacturing of vehicles is carried out by GM Uzbekistan (cars), SamAuto (trucks and buses), MAN Auto Uzbekistan (trucks). AK (Joint Stock Company) «Uzavtosanoat» consists of about 200 vehicle component manufacturers, as well as GMPT Uzbekistan dealing in production of engines.

Who owns the automotive industry of Uzbekistan?

The enterprises of the Republic's automotive Industry are united to the state Joint Stock Company «Uzavtosanoat». Since the country focuses on localization of the vehicles manufactured in the Republic and active attraction of investors, the automotive Industry of Uzbekistan is generally represented by joint ventures with foreign partners.

Why did Uzbekistan become the 28th car manufacturing country?

In 1996 when the first car factory of Central Asia was launched in Asaka, Uzbekistan became the 28th car manufacturing country, most of people were in doubt that the Uzbek cars would enjoy a high demand. Automobile manufacturing becomes a locomotive for all industries of Uzbekistan because it encourages the development of adjacent industries.

Who founded the Uzbek automotive industry?

At the initial stage of foundation of Uzbek automotive Industry the Association united Joint Ventures UzDaewoo and UzDaewoo Electronics established in the first half of the 90-s to the extent of the partnership of the Republic and Daewoo corporation.

What is Uzbekistan known for?

Today, Uzbekistan is the only country in Central Asia that produces a full range of passenger and commercial vehicles. At present, more than 85 enterprises in the country operate in the automotive industry and cooperate

with more than 200 foreign companies and organizations in this field. Today, the industry employs 28,000 people. Foreign Trade.

Why is automobile manufacturing a locomotive for all industries of Uzbekistan?

Automobile manufacturing becomes a locomotive for all industries of Uzbekistan because it encourages the development of adjacent industries. The international experience shows that the development of automobile manufacturing results in growing efficiency of adjacent fields of economy and stable increase of employment.
