

## SolarGrid Energy Solutions

# Uzbekistan distributed intelligent energy storage project approved

## Overview

---

What is the Uzbekistan energy project?

7. The Project builds on the World Bank energy program in Uzbekistan by scaling up the private investment and commercial financing, diversification of power mix from domestic resources (solar), clean energy transition and decarbonization.

Will the World Bank support a solar photovoltaic plant in Uzbekistan?

Image for representation purposes only. The World Bank on Tuesday (May 21) announced that it will support a 250-megawatt (MW) solar photovoltaic plant with a 63-MW battery energy storage system (BESS) in Uzbekistan -- Central Asia's first renewable energy facility with a utility-scale battery storage component.

Why is Uzbekistan so energy-intensive?

Uzbekistan remains one of the most energy-intensive economies in the world. Energy use is largely based on fossil fuels, although the country has significant RE potential in solar and wind. Natural gas makes up to 83 percent of total primary energy consumption and more than 80 percent of the electricity mix.

What is a power purchase agreement between Uzbekistan & national electric grid?

As part of the agreement, it will sell electricity to the state-owned National Electric Grid of Uzbekistan JSC under a 25-year Power Purchase Agreement for the project, including a 10-year operating term for the BESS component, signed by these two entities.

Who owns Nur Bukhara solar power plant & battery energy storage?

The Nur Bukhara greenfield solar power plant and battery energy storage (BESS) will be implemented through Nur Bukhara Solar PV LLC FE owned by

Masdar. The project company will be responsible for developing, financing, building, owning, operating, and maintaining the solar plant and BESS.

Who is funding Nur Bukhara solar power plant?

The World Bank, Abu Dhabi Future Energy Company PJSC (Masdar), and the Government of Uzbekistan signed a financial package to fund the Nur Bukhara greenfield solar power plant and BESS facility. The project aims to expand clean and reliable electricity access to approximately 75,000 households.
