Victoria s battery cabinet quotation

Overview

How much weight can a lithium ion battery storage cabinet hold?

Max. Shelf Load Max. Shelf Load: 75 kg Max. Shelf Load: 75 kg We are a supplier of high-quality Lithium Ion Battery Storage Cabinet, featuring a powder-coated steel chamber with self-closing, oil-damped doors for safe storage and controlled battery charging environments.

What are labtron lithium ion battery storage cabinets?

Labtron Lithium Ion Battery Storage Cabinets are engineered for secure storage and controlled battery charging environments. These cabinets feature self-closing, oil-damped doors and triple hinges for maximum structural endurance. They are constructed with a powder-coated steel body and integrated leak-proof sump for safe containment.

Why do I need a cabinet for my inverter & charge controller?

The cabinets are sized to enable mounting of all inverters and charge controllers in the same panel. This makes the installation much safer, whilst keeping all equipment out of sight and protected from the elements. The cabinets are made of aluminium, making them easy to position and providing a long service life.
