

## SolarGrid Energy Solutions

# Vietnam s new photovoltaic panel manufacturer

## Overview

---

Today, Vietnam hosts over 47 solar panel companies, including major international players like Longi Solar, JinkoSolar, and Canadian Solar, alongside emerging domestic manufacturers such as Bamboo Capital and Sao Mai Group. Where is the largest solar panel factory in Vietnam?

Trina Solar (Bac Giang) In 2017, the solar panel factory of Trina Solar (Vietnam) Science & Technology Co., Ltd. was officially inaugurated and put into operation in Bac Giang. The total designed output of the plant reached 1GW, which is the largest solar panel factory in Vietnam today.

Are solar panels regulated in Vietnam?

In Vietnam, the certification for solar panels and solar inverters is strictly regulated by the Directorate for Standards, Metrology, and Quality (STAMEQ) under the Ministry of Science and Technology.

Who makes solar panels in China?

5. IC Energy (Quang Nam) In 2011, the project of Indochina Energy Industry Company (IC Energy) solar panel factory was officially started at Chu Lai Open Industrial Park (Quang Nam). The plant has a total capacity of 120MW/year, including 4 modules and auxiliary production lines for solar panel production.

Who is Trina Solar Vietnam?

Trina Solar Vietnam has made a name for itself by providing high-quality, durable solar panels that contribute to the global transition to renewable energy. Founded in 2005, JA Solar Vietnam is a subsidiary of JA Solar, a renowned solar panel manufacturer with operations globally. The Vietnamese branch is located in Bac Giang Province.

Who is Canadian Solar Vietnam?

Canadian Solar Vietnam is a subsidiary of Canadian Solar Inc., a multinational energy conglomerate with a strong global presence. The manufacturing

facility in Vietnam is located in Binh Duong Province. Canadian Solar has a solid reputation for providing high-performance solar technology and renewable energy solutions.

How much solar power does Vietnam have?

Statistics released in late 2020 reveal that Vietnam's solar capacity stood at over 7.4 Gigawatts. This is positively surprising considering that the country's solar capacity was only 4 megawatts in 2015. The figure below will help paint a clear picture of Vietnam's exponential growth in matters concerning solar energy;

## Vietnam s new photovoltaic panel manufacturer

---

### Photovoltaic panels exported to Vietnam

However, solar panel products including photovoltaic cells and solar panels are still subject to safeguard measures by the US against all countries, including Vietnam from February 2018.
