

**SolarGrid Energy Solutions**

# **Warsaw 40-foot energy storage container**

## Overview

---

What is a container energy storage system?

Dedicated container energy storage cooperating with RES. Smart electricity storage system it's more than a battery. It is a solution that enables loading and unloading the warehouse in modes adapted to the needs of users. What is different energy storage from generators, the use of stored electricity without noise, fuel and maintenance.

What is LiFePO4 energy storage?

Energy storage in LiFePO4 technology is designed together with a BMS (supervisory system), the BMS system controls the maximum charging and discharging currents, controls the module temperature and voltage. Good-quality energy storage ensures up to 20 years of safe work with photovoltaics. Energy storage for home and industry.

How many kWh is a NRG storage module?

The standard NRG Storage module is 138 kWh, you can combine modules and adjust the storage capacity to your needs. Solutions are built on the basis of LiFePO4 technology. It ensures long battery life (over 6000 cycles) and the highest level of safety during operation. Save more! Charge the energy storage from surpluses from photovoltaics
