

## SolarGrid Energy Solutions

# Where is the battery energy storage system for Finland's communication base stations built

## Overview

---

SEB Nordic Energy's portfolio company Locus Energy, in collaboration with Ingrid Capacity, has announced the start of construction work on Finland's largest battery energy storage system (BESS) in Nivala, North Ostrobothnia. What is Finland's 90-megawatt battery energy storage system?

The 90-megawatt battery energy storage system supports the stability of Finland's energy network and will help the country meet its climate goals.

Will there be a battery storage unit in Finland?

The construction for the battery storage unit is on-going. Customer Manager Antero Reilander from Fingrid says that Neoen inquired – via a consultant – in October 2019, if there would be suitable plot for battery storage facility somewhere in Finland.

Which energy companies are launching new projects in Finland?

Aquila Clean Energy has launched construction on a 50MW BESS in Finland, while MW Storage has launched two new projects in the country. Battery energy storage systems (BESS) from several firms helped the energy system recover after the NSL interconnector, which connects the UK and Norway, suddenly stopped exporting power to the UK.

Is Yllikkälä the biggest battery storage project in Europe?

"Yllikkälä is a key project for our company, being the largest of its kind for us in Europe. It is a very good complement to our renewable project developments in Finland," says Prot. Antero Reilander comments that while there have been other battery storage projects in Finland, this one is the biggest – by far.

Is Yllikkälä a suitable plot for a Neoen battery storage facility?

Customer Manager Antero Reilander from Fingrid says that Neoen inquired – via a consultant – in October 2019, if there would be suitable plot for battery

storage facility somewhere in Finland. “We made a survey of the entire country and quickly focused on Yllikkälä which seemed like a really good fit for Neoen,” Reilander looks back.

## Where is the battery energy storage system for Finland s communica

### Finland Power Storage Base: Innovations, Trends, and Case ...

Jul 8, 2024 · With projects ranging from underground thermal vaults to cutting-edge battery systems, Finland's approach to energy storage is about as diverse as its famous midnight sun ...

### Case Finland: Proving the operational value of ...

Aug 13, 2025 · Distributed Energy Storage can reward mobile network operators with financial and operational gains.

### Energy Storage Solutions for Communication ...

Sep 23, 2024 · Conclusion In summary, energy storage solutions are critical for the reliability and efficiency of communication base stations. By integrating ...

### Foundation stone laid for one of Finland's largest battery energy

May 27, 2025 · When commercial operations begin in 2026, the system will balance the Finnish electricity grid and support the growth of renewable energy in Finland. The groundbreaking ...

### **Groundbreaking ceremony marks ...**

May 27, 2025 · SEB Nordic Energy's portfolio company Locus Energy, in collaboration with Ingrid Capacity, proudly announces the groundbreaking of ...

### **Finland's Tuoyuan Energy Storage Technology: Powering the ...**

Nov 7, 2023 · Ever wondered how Finland, a country with brutal winters and limited sunlight, became a global leader in renewable energy? The answer lies in Finland Tuoyuan Energy ...

### **Improved Model of Base Station Power System ...**

Nov 29, 2023 · The widespread installation of 5G base stations has caused a notable surge in energy consumption, and a situation that

conflicts with the ...

## Strategy of 5G Base Station Energy Storage Participating in the Power

Mar 13, 2023 · The proportion of traditional frequency regulation units decreases as renewable energy increases, posing new challenges to the frequency stability of the power system. The ...

## Toward Net-Zero Base Stations with Integrated and Flexible Power ...

Jan 20, 2022 · The energy consumption and carbon emissions of base stations (BSs) raise significant concerns about future network deployment. Renewable energy is thus adopted and ...

## Finland base station energy storage battery system

What is Finland's 90-megawatt battery energy storage system? The 90-megawatt battery energy storage

system supports the stability of Finland's energy network and will help the country

...

## Finland activates world's largest sand battery to store ...

Jun 19, 2025 · Finland has activated the world's largest sand battery in Pornainen, storing excess renewable energy as heat to power an entire town's heating needs. The system cuts heating

...

## A review of the current status of energy storage in Finland ...

Jul 15, 2024 · The status of these energy storage technologies in Finland will be discussed in more detail in the next sub-sections, giving a better understanding of the current and potential ...
