

# **Which brand of battery energy storage is good in Belarus**

## Overview

---

How will energy storage help Saint Petersburg's public transport system?

"Advanced energy storage systems will help municipal authorities organize new transport routes and make public transport in Saint Petersburg safer and more convenient," RENERA CEO Alexander Kamashev explains. Exploring new opportunities This July, RENERA made another step in strengthening its ties with Belarus.

How Renera batteries helped BKM holding fulfill a contract with Gorelectrotrans?

RENERA batteries made it possible for BKM Holding to fulfill a contract with the Saint Petersburg (Russia) electric transport operator Gorelectrotrans. The contract was signed a few weeks before the companies agreed on the shipment of batteries and provides for the supply of 97 Olgerd 32100D trolleybuses.

What are the advantages of Renera batteries?

Thanks to a built-in thermostatic system, RENERA batteries have an extended operating temperature range (-35 °C to +40 °C). Their affordable price is another advantage. In March 2022, RENERA signed a contract to supply batteries for trolleybuses produced by BKM Holding.
