

## SolarGrid Energy Solutions

**Which departments are involved in the wind and solar complementary service of Samoa's communication base stations**

## Overview

---

How does Samoa's energy system work?

ed integration of innovative distributed energy solutions across its service territory. Currently, Samoa's energy portion of the tariff sees its highest cost kWhs coming from energy supplied through its diesel resources. The Samoan Government has an established goal of 70% renewable energy generation.

Which land is available for solar energy in Samoa?

For power, spaces in front near and the rear end of the thermal station is available for RE. Total land area from Samoa Land Corporation is 15.5 acres. Land was designated for Solar Energy. Lease property is legally leased to EPC from Samoa La.

Who installed solar street lights in Samoa?

Installation of Solar Lights The Impress Project through the Renewable Energy Division distributed and installed solar street lights for selected community groups and schools. Samoa's first NDC focuses primarily on reducing emissions from the energy Sector.

What is stewardship in Samoa?

stewardship in Samoa. the growing fleet of electric vehicles within the government and eventually, the public. The energy usage across Samoa. The project aligns with Samoa's commitment to achieving 26% Determined Contribution 2 nd NDC). o Smart Meter/4G Modem for remote monitoring and data analysis.

How will Samoa achieve 26% NDC?

the growing fleet of electric vehicles within the government and eventually, the public. The energy usage across Samoa. The project aligns with Samoa's commitment to achieving 26% Determined Contribution 2 nd NDC). o Smart Meter/4G Modem for remote monitoring and data analysis. battery storage as

a backup and grid electricity as a last resort.

Will fa'atuatua i le Atua Samoa UA Tasi reopen renewable?

The Minister said upon the Fa'atuatua i le Atua Samoa ua Tasi (F.A.S.T.) Administration getting into office last year, they discovered that the previous government had ceased renewable energy development projects. But that decision will be overturned according to Olo, who assured that they will get those projects back on track.
