Which kind of outdoor power supply is better in Riga

Overview

What type of power plugs are used in Latvia?

In Latvia, power plugs and sockets (outlets) of type F are used. The standard voltage is 230 V at a frequency of 50 Hz. For more information, select the country you live in at the top of this page. We don't sell power plug adapters. We refer you to Amazon, where you will find a great selection of travel adapters.

Do I need a power adapter in Latvia?

The standard voltage in Latvia is 230V, and the frequency is 50Hz. Devices from countries with different voltage standards, like the United States (120V), may require a voltage converter in addition to a plug adapter. Do You Need a Power Adapter in Latvia?

Whether you'll need a power adapter depends on the type of plug your devices use.

What does a travel plug adapter look like in Latvia?

When you are going on a trip to Latvia, be sure to pack the appropriate travel plug adapter that fits the local sockets. But what do those electrical outlets look like?

In Latvia, types C and F are the official standards. Like almost all Continental European countries, Latvia has standardized on the German plug and socket system.

Do I need a 230 volt adapter for Riga?

Ensure your devices are ready as you explore the vibrant streets of Riga or the beautiful landscapes of Gauja National Park. The United Kingdom uses Type G outlets with a voltage of 230V. If you're traveling from the UK, you'll need a Type G to Type C/F adapter.

Do Europeans need a travel adapter in Latvia?

Europeans do not need a travel adapter or transformer when traveling to Latvia. Most device plugs will work with the outlet types in Latvia. Also, the voltage in Latvia is the same as in Europe. What Outlet does Latvia Use?

Type C plug sockets are used in Europe, Africa and Asia. They have two round pins and no grounding pin.

What type of electrical outlet does Latvia use?

Latvia primarily uses Type C and Type F electrical outlets. These types are common in many European countries. Also known as the standard “Euro” plug, Type C outlets have two round pins. Also known as “Schuko,” Type F outlets have two round pins with two earth clips on the side. The standard voltage in Latvia is 230V, and the frequency is 50Hz.
