

## SolarGrid Energy Solutions

# Wholesale rcb circuit breaker in Singapore

### Product Details

## Overview

---

What is a RCCB (residual current circuit breaker)?

A RCCB (Residual Current Circuit Breaker) is a type of circuit breaker that cuts off the electricity supply immediately upon detecting leakages that may result in an electric shock. Note: Singapore has mandated the installation of residual current circuit breakers (RCCBs) in all Housing Board (HDB) flats and private dwellings by July 1, 2025.

What is the difference between RCCB & MCB breaker?

RCCB Breakers: RCCB stands for Residual Current Circuit Breaker. They are designed to quickly disconnect any circuit as soon as current leaks to the earthing wire. RCCBs are also effective in protecting from electrocution or shock from direct contact. MCB Breakers: MCB stands for Miniature Circuit Breaker.

Are residual current circuit breakers mandatory in Singapore?

Note: Singapore has mandated the installation of residual current circuit breakers (RCCBs) in all Housing Board (HDB) flats and private dwellings by July 1, 2025. Non-compliance may result in a fine of \$5,000.

What is a MCB breaker?

A MCB (miniature circuit breaker) is a type of electrical switch designed to protect electrical circuits from overcurrents and short circuits. It is a critical safety device used in residential, commercial, and industrial electrical distribution systems.

Why should you choose a circuit breaker manufacturer in Singapore?

24/7 online get a quote! Circuit breakers are essential components of any electrical system, protecting against electrical overloads and short circuits. In Singapore, the demand for reliable and high-quality circuit breakers has led to the emergence of a thriving industry of circuit breaker manufacturers.

## What is RCCB & RCBO?

RCCB stands for Residual Circuit Current Breaker. It is an electrical wiring device whose function is to disconnect the circuit when it detects currents leaking to the earth wire. It also gives protection against electric shock or electrocution caused by direct contacts. RCBO stands for Residual Circuit Current Breaker with Overload Protection.
