

## SolarGrid Energy Solutions

# Will Jordan build an energy storage power station

## Overview

---

Jordan is planning to build a pumped-storage hydropower station and make a roadmap for developing energy storage technologies to support grid stability, store surplus power and integrate more renewable energy into the grid. Will Jordan build a \$40 million battery facility?

Jordan's government has reportedly agreed on proposals for a \$40 million battery facility to push forward the country's energy storage ambitions. The government has signed a memorandum of understanding with 23 international firms and consortia to build a battery storage facility with a capacity of "at least" 30MW, according to The Jordan Times.

Can Jordan build a hydroelectric power station?

Jordan has no notable bodies of flowing water suitable for the construction of hydroelectric power stations. The only such plant is at the King Talal dam on the Az Zarqa River, with a capacity of 5 MW.

What is the largest power station in Jordan?

The Aqaba Thermal Power Station is the largest power station in Jordan, with a total generation capacity of 656 MW. It consists of five steam turbines units (5 x 130 MW) and two hydraulic turbines (2 x 3 MW). The power station is fueled by natural gas and fuel oil.

Will Jordan get 60% of its energy needs from nuclear energy?

Jordan plans to get 60% of its energy needs from nuclear energy by 2035. According to the JAEC, all evaluations took into account the highest safety requirements, including lessons from the Fukushima incident.

How much electricity is generated by solar & wind power plants in Jordan?

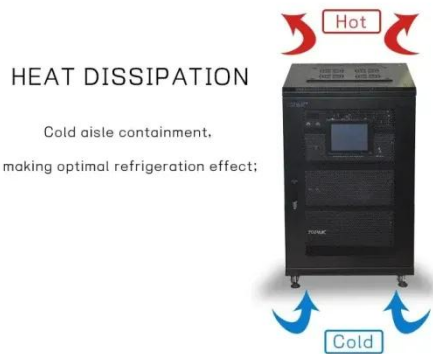

Kharabsheh told the paper electricity generated by solar and wind power plants in Jordan as of the end of 2017 was around 500MW— a level he wants to increase to 2,700MW by 2021.

Where will a new battery plant be built in Amman?

The paper quoted energy minister Saleh Kharabsheh (pictured) as saying the “first of its kind in the region” facility would be built in Maan, 220km south of the capital Amman. No battery technology for the project was specified.
