# **Winch circuit breaker factory in Ireland**

## Overview

---

What is a circuit breaker for a winch?

A circuit breaker for a winch is a device that protects the electrical system from overload. When power comes into the circuit, it automatically goes to each device in turn. It shuts off if it senses an overload. This protects the winch and any other devices connected to it from getting damaged in case of an electrical emergency.

What is a Yale & Pfaff-silberblau electrical winch used for?

Electrical winches from YALE and Pfaff-silberblau have been used for decades in various industrial sectors and can be used for a wide range of applications in industry, aviation, shipbuilding, construction and entertainment.
