

## SolarGrid Energy Solutions

# Xiaomi Energy Storage Power Supply Production Factory

### Lithium Solar Generator: S150

## Overview

---

How much money does Xiaomi contribute to a joint venture?

The registered capital of the joint venture company is 1 billion yuan (138 million USD), with the platform company contributing 390 million yuan (54 million USD), accounting for 39%, CATL contributing 510 million yuan (71 million USD), accounting for 51% and Xiaomi Auto contributing 50 million yuan (6.9 million USD), accounting for 5%.

Will BAIC invest in a battery cell manufacturing plant in Beijing?

After establishing the joint venture company, it will invest in constructing an intelligent battery cell manufacturing plant in Beijing. According to the announcement, BAIC Investment and Beijing Hainachuan are related parties of BAIC BluePark, constituting a related party joint investment transaction.

Will Nio build its first battery plant?

NIO is planning to build its first battery plant to make cylindrical battery cells on its own for its electric cars, to reduce dependence on CATL for the sourcing of batteries.

Will Xiaomi become a top global carmaker in 20 years?

Xiaomi Corp. has unveiled its first electric car, Xiaomi SU7 and announced its ambition of becoming a top global carmaker in the next 15 to 20 years taking on rivals like Tesla and Porsche AG.
