## Overview

---

### Who is Canadian Solar?

Canadian Solar Inc. is a leading global solar technology company, founded in 2001 and headquartered in Guelph, Canada. It is one of the world's largest manufacturers of solar photovoltaic (PV) modules and a provider of solar energy solutions.

### Why should you choose xindun solar panels?

Xindun's solar panel system have been a game-changer for our solar energy projects in Japan. Their technology and products have optimized energy generation, allowing us to tap into the abundant solar resources of this beautiful country. Xindun's reliability and commitment to quality have been crucial in meeting Japan's strict energy standards.

### What type of solar panels does talesun offer?

Talesun offers a variety of solar modules, including monocrystalline and bifacial PERC technologies, designed for residential, commercial, and utility-scale applications. The company is known for its high-efficiency panels, especially those with advanced cell technology like 9-busbar (9BB) and bifacial capabilities.

### Where are solar panels made in China?

Jiangsu Province is renowned as one of China's largest solar panel manufacturing hubs. Located on the east coast, it has the advantage of being near ports, which facilitates the ease of exporting solar panels. The province hosts a multitude of solar panel manufacturers in China, including Trina Solar, one of the world's largest.

### Why are xindun solar panels so popular in Brazil?

Xindun's diversity off grid solar panels system have become a popular choice among Brazilian consumers. Their exceptional performance and durability

have proven effective in Brazil's diverse climatic conditions, ensuring reliable energy business.

Why is xindun a distributor of solar panels in Myanmar?

Being a distributor of Xindun's solar panel system in Myanmar has been a rewarding experience. Xindun's solar products, designed to overcome Myanmar's power infrastructure challenges, have empowered us to address the energy needs of diverse Myanmar markets.
